

Dear Doctors...

GREETINGS FROM CETHAR HOSPITALS!

We take immense pride to thank you all for your great support for our First Living Donor Liver Transplant surgery at our Hospital in Trichy.

First Living Donor Liver Transplant has been performed successfully by Liver Transplant surgeon & Director CETHAR HOSPITAL, **Dr. G Rajarathinam** and his team for a terminally ill Liver failure patient from Yemen. **Mr. Mansoor Hasan Mohammed** aged 40 years who is a government employee. He got his new lease of life through Liver Transplant by getting right half of liver removed from his younger brother, **Mr. Nashwan Hasan Mohammed**, 30 year old taxi driver in their country. Mr. Mansoor was suffering from Cirrhosis of Liver due to haemochromatosis (a condition due to accumulation of Iron in liver) for more than 10 years. Only option available to save his life was to undergo Liver Transplantation. So his younger brother decided to donate a portion of liver (Right Liver) to him.

The Transplant team at our Hospital performed this complex surgery on 26th January successfully. The team comprises of Transplant surgeons, Anesthetists', Hepatologists, Specialists, OT Technicians and Nurses, who worked in tandem to make surgery successful. Both the donor and recipient recovered quickly and got discharged.

First time a Living Donor Liver Transplant surgery performed beyond Chennai in Tamilnadu was appreciated by the medical community and the same was published in print media in all leading newspapers (kindly find enclosed attachment) as well.

By performing this most complex Liver surgery at our hospital, which fulfills, **Mr. K. Subburaj**, Chairman – Cethar Group dream of bringing world class medical services to the needy people in central and southern parts of Tamilnadu within 2 years of beginning of operation at Trichy. His vision is to provide high quality care for patients with Liver Disease and makeover Trichy into a future hub for medical tourism.

The first living donor liver transplant in Cethar Hospital was successfully coordinated by Corporate Director - **Mr.Karthick.S.P.**

We are thankful for your great support in the short period of time for referring High risk & complicated cases in the field of Gastroenterology, Liver & Pancreatic disease and we seek your continuous support by referring patients with Jaundice & Liver Diseases like

- Alcoholic Liver disease
- End Stage Liver disease/ Cirrhosis
- Chronic Liver Failure
- Liver Cancer – Hepatoma
- Intra Hepatic stones
- Portal Hypertension – Non Cirrhotic
- Cystic Liver disease
- Viral Hepatitis
- Acute Liver Failure
- Jaundice – Medical/ Surgical
- Liver – Secondaries
- Ascities
- Budd Chiari Syndrome
- Chronic Liver Abscess

We also proud to announce that our hospital is empanelled under **CMCHISTN(Chief Minister's Comprehensive health insurance Scheme Tamilnadu) for Liver transplantation too**, which will be a boon to the needy people of Tamilnadu.

We assure you that our Liver Transplant team will provide a High Quality tertiary care to your patients with a cost effective approach.

Regards

Dr.G Rajarathinam
